

**ABC Unified School District  
Argument in Favor of Measure AA**

Your YES vote on Measure AA will create a lasting, positive impact on the quality of our schools, neighborhoods, and the value of our homes while still protecting taxpayers. Here's how:

Everyone knows the importance and value of quality schools. From higher achieving students to greater neighborhood safety to improved property values, quality schools make a difference.

But even though ABC USD's schools and classrooms have been well maintained over the years, these buildings have an average age of over 50 years! Our classrooms and schools require major upgrades and improvements not only to meet today's technological, safety and educational standards but to avoid even greater repair costs in the future.

**Your support on Measure AA will improve school facilities** (by) *unbold fr. M-M*

- Repairing and modernizing aging classrooms at schools throughout the District.
- Repairing and replacing roofs and outdated heating, ventilation and air conditioning systems.
- Expanding and improving career technical education facilities for science, technology, engineering, and math.
- Increasing student safety with seismic retrofits of schools and classrooms, upgrading lighting and fencing for improved campus security, and redesigning unsafe student drop-off/ pick-up locations.
- Upgrading classrooms throughout the District with up-to-date technology and computers.

**By law, Measure AA guarantees taxpayer protections.**

- No funds can be spent on administrator or teacher salaries, benefits or pensions!
- Review of all expenditures by an independent citizens' oversight committee.
- Annual financial audits by an independent accounting firm.
- All funds must be spent on our local school facilities and CANNOT BE TAKEN BY THE STATE AND SPENT ELSEWHERE.

Measure AA deserves our support. It not only will maintain the quality of our schools, it will help maintain the quality of our community and increase property values. Please join us and VOTE YES on MEASURE AA.
